- Professor Dimatteo was very open minded on the intentions of the art we made for him.
- Learning new things while having fun at the same time. Like, trying to make classwork more fun and interesting.
- The teacher's openness to question was particularly useful in the course.
- I LOVED THIS CLASS!! And, the main reason was because of the professor. He has a great balance between being a professor and making sure you get you're work done, but also being a friend and being there when you need assistance with school work. He is very understanding, and wants to make sure you are not only completing assignments because it is required, but you are learning something valuable whether you decide to stick with the major or not. If I had to recommend a professor to a student in IMM, it would be him!! He is an amazing professor, and I am sure other students will agree.
- Did a great job at covering the entire curriculum and enriching the students in a multitude of programs and media.
- I think having examples and showing how to use the programs as opposed to only having slides is a really good idea. And giving students tutorials and other beginner material is helpful as well.
- I liked the wide variety of programs we used and the resources provided to help us learn more about them outside of class as well as the slides.
- The instructor was well organized and prepared for class each week. The slides sent before class were extremely helpful and I could look back on them if I was confused with something. The instructor was also thorough when presenting new topics in class.
- He really liked all of the things I did in class and motivated me to go beyond.
- I really enjoyed the project reviews we would have at the beginning of every class and all the programs we touched on in the course. I feel it is very well rounded and you come out knowing a lot and building more experience.

9 - 2.) Please indicate aspects of the instructor's teaching or of the course that you feel most need improvement.

- Probably offer tutoring sessions sometimes.
- I don't feel that there are aspects of the course that need improvement.
- I think he did everything right for me.
- N/A
- I think constructive feedback about how projects could be improved would be a really good idea. Like when the assignments come back as a low score, maybe describe what about it made it low with canvas comments like was it a submission problem or suggest some creative choices to improve.
- It was hard for me to pay attention in class and actually learn sometimes because it wasn't too interactive but that could just be me.
- There was nothing I felt needed improvement with this course.
- Everything was great no need for improvements. Maybe splitting up the class into 2 different sections on different days.

- None.
- Overall, I greatly enjoyed the course.
- Professor Dimatteo rocks!
- N/A
- Overall, I enjoyed the course and most of the assignments.
- The course was fun and informative. Prior to this class I had little knowledge of some of the software apps that we used in class. Now I feel comfortable with everything I learned and I will definitely use what I learned to help me in the future.
- I really loved the class and everything we did in it. I really want to keep doing things like this.
- I had a lot of fun in this course and got to do a lot of projects I'm into while expanding my knowledge in other programs. I feel a lot more confident in many of the programs we went over and the professor was super helpful for everyone.
